

which were ^{each} 11 links distant instead of 17 links as recorded in Gov. field notes. Mr. M. H. Buskirk, my predecessor having sized this corner in two different surveys, supposing the 17th were recorded by mistake and all the interested parties as named above agreeing that Mr. Buskirk's location of the corner should be taken as correct, I then commenced at the N. $60\frac{1}{2}$ mile post of sec. 14 T. 10 N., R. 2 W. ran thence south with a variation of 32° to South $\frac{1}{2}$ mile post of said sec. 14 coming out 63 links north and 65 links east of desired point (I ran south 79.59 ch.) I then corrected back in fourth distance, ran thence east 40 ch. ~~missing~~ the I then located and established the N-E corner of the S-E quarter of the S-E quarter of sec. 14 T. 10 N., R. 2 W. by planting a lime stone witnessed by two stones one being just 22 links; the other being N 35° E 10 links. I then found that the terminus of line last described was 33 links west and 1.38 E. north of corner just described. I then corrected back $\frac{1}{4}$ distance, located and established the N-W corner of the S-E quarter of the S-E quarter of sec. 14 T. 10 N., Range 2 W. by planting a stone witnessed by two stones, one being planted S. 1° W. 35 links, the other N. 82° E. 28 $\frac{1}{2}$ links.

By consent of Mr. Squire, Shulbourn and Stephen R. Elliott, Joseph B. Corns acted as flagman and Mr. William Cobb and Albert Cooksey acted as chain-bearers: in above survey, they each having been duly sworn.

I hereby certify the records of the above described surveys to be true.

In witness whereof I attach my hand and seal

A. G. Dillman

Notary Co. Surveyor.
